

## PRODUCT INFORMATION

### PRO CARE DPF CLEANER SPRAY

#### Description

**DPF Cleaner Spray** is a non-flammable, metal-free cleaner for removing carbon and ash deposits in diesel particulate filters. For restoring the absorption capacity of the particulate filter during service, without removing the particulate filter.

#### Benefits

- Non-flammable
- Residue-free evaporation
- Ash-free and metal-free formula
- Removes carbon and ash deposits
- Reduces the load state of the diesel particulate filter
- Application is possible without dismantling the particulate filter

#### Application

- For restoring the absorption capacity of the diesel particulate filter
- For signs of power loss and increased fuel consumption
- As a preventative measure in case of an unfavourable driving profile

#### Instructions

Dismantle the temperature or pressure sensor on the diesel particulate filter. Spray the cleaner into the opening created, at intervals, in the direction of the particulate filter (hold the spray can upright). Then, reattach the sensors and carry out a test drive. Delete existing error codes. For professional use by workshops and qualified technicians only.

Notice

! If regeneration has not been performed during the test drive, it must be initiated manually by the tester.

! Caution! Follow the information provided by the vehicle manufacturer.

VOLUME

400 ml
