

## PRODUCT INFORMATION

### PRO CARE RUST REMOVER

#### Description

**Rust Remover** is a synthetic, colourless rust remover with multi-purpose additive combination for use in the food industry.

#### Benefits

- NSF H1 sub-registration possible
- Friction value reduction and corrosion protection by means of special additives
- Rust penetration and high degree of rust removal thanks to good creep properties

#### Application

- Dissolves highly rusted and oxidised screw connections
- For all applications in which the use of products of physiologically safe, mineral oil-based, critical additives and/or critical solvents is not desired

#### Instructions

From a distance of approx. 20 cm spray an even coat. Leave to take effect briefly. With stubborn connections, repeat application and extend penetration time where necessary.

Notice

! If the product is to be used in the food processing industry, only the minimum quantity that is technically necessary may be used.

! If the product is to be used as an anti-corrosive film, it must be completely removed before the device in question is used again.
