

## PRODUCT INFORMATION

### PRO CARE WHITE GREASE SPRAY

#### Description

**White Grease Spray** is a mineral oil-based, versatile white long-term grease with excellent material compatibility. For long-term lubrication and protection against rust and oxidation.

#### Benefits

- Free from silicone, resin and acids
- Very good sealing properties
- Good oxidation stability
- Excellent corrosion protection
- Excellent material compatibility
- Resistant to splashes and salt water
- Temperature range: -15°C to +130°C; Briefly: +200°C

#### Application

- Maintenance and inspection work, e.g. hinges, joints, sliding rails.
- Wherever an oil spray is not long-lasting enough

#### Instructions

Pre-clean the surface to be treated. From a distance of approx. 20 cm spray an even coat. Repeat the spraying process if necessary. Spraying from a very short distance increases the creep capacity with a longer drying-off time.

VOLUME

300 ml

PACKAGING

12 Pcs.  
1 Box
